

## Java Exercise 2

- Requirements:
  - Display a rectangle on a frame (using JComponent and JFrame);
  - With RectangleComponent.java, we can input the distances dx, dy to move and display the rectangle at the new position (inside of the frame); we repeat moving until we choose stop;
  - With RectangleViewer.java, we repaint the moved rectangle and erase the old one each time of moving.
- Create a folder named RectangleMover\_TeamXX to store your project:
  - RectangleComponent.java
  - RectangleViewer.java
- Copy the result in the working folder according to your group:  
...\Dropbox\JAVA\Exercises, Assignment & Exam\Team XX
