

## Java Exercise 3

- Requirements:
  - Display the warning message as below:
    - richter<4.5 and in city => damage to poorly constructed buildings
    - richter <4.5 and not in city => no action needed
    - richter >=4.5 and incity => prepare for diaster recovery
    - richter >=4.5 and not in city => many buildings considerably damaged, some collapse
  - Earthquake.java will define the above rule;
  - EarchquakeRunner.java will receive the information from the keyboard and display the result.
- Create a folder named Earthquake\_TeamXX to store your project:
  - Earthquake.java
  - EarthquakeRunner.java
- Copy the result in the working folder according to your group:  
...\Dropbox\JAVA\Exercises, Assignment & Exam\Team XX
